

Political Power By: Francine and Kylie

If I could go anywhere or do anything I would want to have the power to change the world. If I were a politician I would be able to do that.

If I were a politician I would make sure people got the proper healthcare and medical treatment that they needed. It would be a necessity to make sure every person got a good education and went to college. To lower the amount of car accidents, I would make sure there were traffic lights *in* places that needed them. I *would* definitely make sure school cafeterias served healthier and more sanitary food.

Politicians are very important because they come up with many of the laws we have today. I *would* want to be a part of that so I could help shape America.
